

## Instructions for Connecting to Greenwich CSD using Mac Remote Desktop Connection Client

- Download and install **Remote Desktop Connection Client** (install the program into your Applications folder)
  - [http://www.apple.com/downloads/macosx/networking\\_security/remotedesktopconnectionclient.html](http://www.apple.com/downloads/macosx/networking_security/remotedesktopconnectionclient.html)
- Double click the application **Remote Desktop Connection** to open it (Shift+Command+A will open your Applications folder)
- Go to “RDC menu” next to the Apple menu and select “Preferences”
- Input these preferences:
  - **Login**
    - Username is your Greenwich campus username (contact x2234 if you have questions)
    - Password is your Greenwich campus password (contact x2234 if you have questions)
    - Domain = **apollo.greenwichcsd.org**
  - **Display** recommendation
    - Remote desktop size = 1024 x 768 (this may vary, depending on your computer model)
    - Colors = millions
    - While connected:
      - Show font smoothing – check
      - Show themes – check
      - Allow bitmap caching – check
      - All others – uncheck
  - **Keyboard** recommendation – all checked
  - **Sound** recommendation – “On the Macintosh computer only”
  - **Drives** – none
    - (Advanced users can select a Mac directory to which they wish to drag/drop work from Apollo to their Mac)
  - **Printers** – if you wish to print documents from Apollo, select your local printer here.
  - **Applications** – leave blank
  - **Security** – Select “Warn me if authentication fails”
