February 26, 2010

Dear Parents/Guardians and Volunteers:

My office was notified that we have a paroled sex offender living in our community. The Greenwich Central School District is taking this matter very seriously. We will notify building principals, staff members, bus drivers, custodians, coaches, after-school program personnel, and adult leaders of various youth organizations that use District facilities, to be aware of these individuals.

It is our intent to provide all reasonable protection for the children of our school district and our community. Our school health and safety curriculum contains instruction about child abuse and related programs that encourage appropriate safety measures.

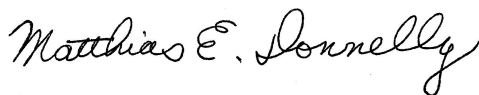

We suggest that you follow common sense in ensuring that your children follow appropriate rules of safety. We recommend that you speak to your child about appropriate guidelines for safe practices, some of which should include:

- Be cautious of strangers.
- Keep a safe distance from cars.
- Do not get close to a car when a stranger is asking for information.
- Do not walk alone.
- Report any unusual events.

Additional information regarding this matter is available at the New York State Sexual Offender website at: <http://criminaljustice.state.ny.us/nsor/index.htm>. You may also contact the Sex Offender Registry at 1-800-262-3257, Monday through Friday from 8 a.m. to 5 p.m.

Please be assured that we will take all responsible action to protect our children in this matter.

Sincerely,

Matthias E. Donnelly
